

Yan Chai Tetraplegic Fund

No.	Name of Equipment	Function	No. of Beneficiary Per Year	No. of Equipment Required	Unit Cost (HK\$)
A1	Electric Wheelchair	Tetraplegia patients reduce dependence on others and result in better health with the aid of an electric wheelchair. It promotes mobility and facilitates activities of daily living for these patients living in the community.	1	1	90,000.00
A2	Electric Ceiling Hoist	Tetraplegia patients lose their movement in all four limbs. Electric ceiling hoist can provide a safe means for them transferring to or from the bed and wheelchair, besides bringing them to the toilet. This device safeguards the health of a caregiver free from an undue strain at home.	1	1	50,000.00
A3	Electric Home Care Bed	Electric home care bed can adjust the height and angle of a tetraplegia patient's head, body and legs to a suitable position. The change of patient's posture from a reclining to sitting position enhance their lung function and muscular strength. Its eye level view can even build up more social interaction. Caregivers in return work easier and free from injury.	1	1	20,000.00
