Auricular Acupressure Therapy

Chinese medicine practitioners believe that our entire body is closely related to the ears. Therefore it can be easily reflected on the ears when our internal organs are not functioning well. The Auricular Acupressure Therapy aims at stimulating the flow of blood and 'Qi' thus improving body condition.

Applicable to:

Insomnia, Gastrointestinal Disorder, Headache/ Migraine,
Pseudomyopia, Obesity (Weight control)

Method:

Ear-patches are used in our clinics. It is non-invasive and therefore safe and convenient to use. It is suitable for most patients.

Service Fees:

Within Promotion Period: \$120 each (Original: \$170 each)

**Discounts available to elderly and eligible persons, please contact our staff for more information.*
